# PRODUCT SECTORS

**SUBCONTRACTING** work to qualified partners continues to be an effective strategy for achieving growth in the engineering industry. Buyers and suppliers from all industry sectors need subcontracting partners to exchange and maintain international benchmark capabilities to remain competitive in a global market. Members of EEPC, particularly those from the MSME sector, would get a stellar opportunity for inclusive growth in **SUBCONTRACT India**

**INDUSTROMECH India** include a diverse range of industrial machines, equipment, accessories and devices which are part of larger industrial and manufacturing projects. More than 10000 domestic visitors, INDUSTROMECH India would provide an unique opportunity to Indian engineering industry to be a part of global and regional value chain.

**INNOVATION India** focuses on engineering start-ups, industrial technologies, technology transfer and promotion in the global market. With eminent technology providers, CSIR Labs, NID, IITs and other similar institutions presenting their capabilities, this platform would go a long way in boosting innovative entrepreneurship. The main purpose of INNOVATION India is not just to present solutions and inventions but also to forge meaningful business connections and collaborations for the growth of innovation ecosystems across globe.

**WATTEG India** is an initiative in connecting India's fast-growing energy and electrical sector with the regional and global requirements particularly in view of rapid urbanization and industrial growth. This premier platform focuses to combine the energy and electrical sectors with its allied equipment industries into a sustainable energy transition. With the right mix of traditional and renewable energy, both for transmission, distribution, WATTEG India aims to achieve the motto of the event **"#SmartSustainableEngineering."**
